> **CAUTION - RISK OF FIRE**
> This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
> Use minimum 90°c supply conductors.

Install the Mounting Plate

1 Loosen **(Do Not Remove)** the set screw on bottom of the fixture arm with the provided Allen wrench.
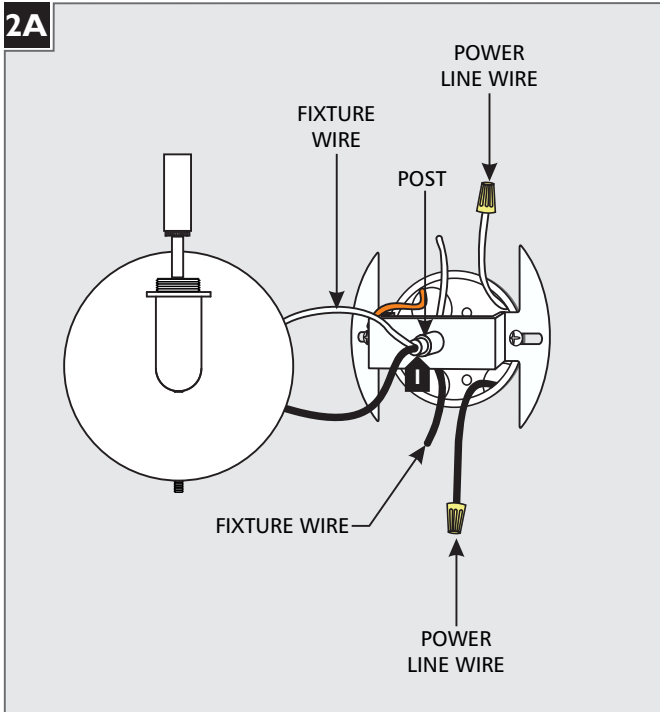

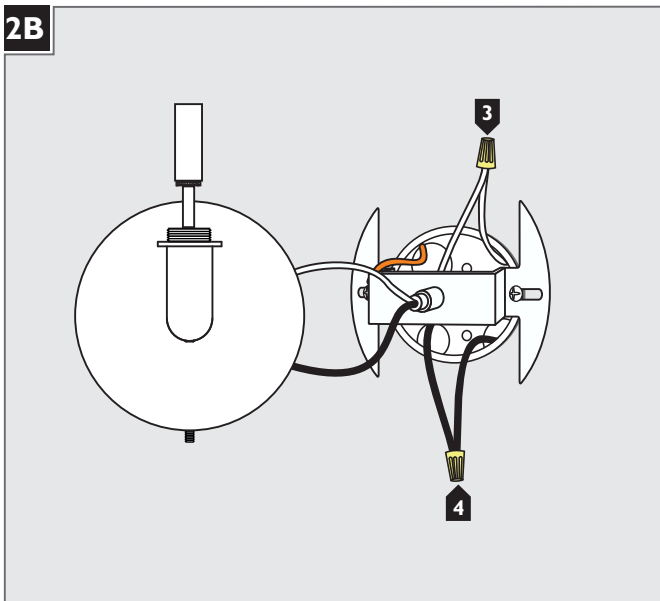

2 Remove the mounting plate.

3 Connect the fixture to a suitable ground in accordance with local electrical codes.

4 Secure the mounting plate to the electrical box with the two #8-32 screws provided.
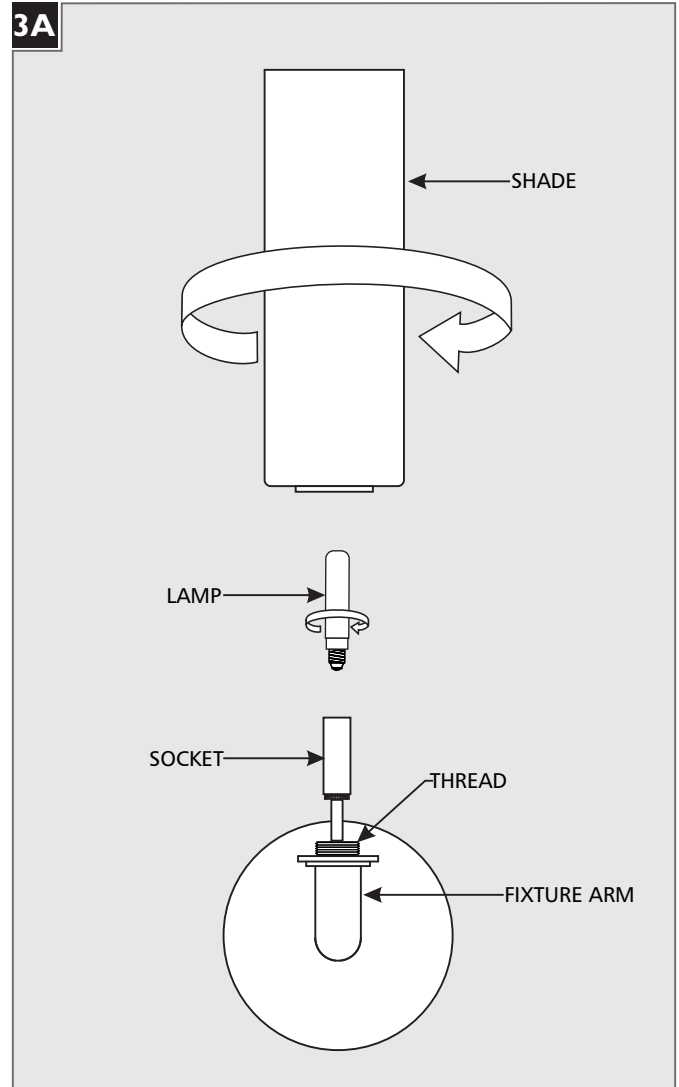

Install the Fixture

2A

1   Feed the fixture wires through the mounting plate post into the electrical box.

2   To connect the power, pull the fixture wires and power line wires out of the electrical box.

2B

3   Connect the white fixture wire to the neutral power line wire with a wire nut.

4   Connect the black fixture wire to the hot power line wire with a wire nut.

5   Properly place all wires and wire nut connections into the electrical box.

6   Re-install the fixture onto the mounting plate (reversal of figure 1A).

Install the Shade and Lamp

3A

Refer to fixture marking for lamp information.

1   Screw the lamp into the socket.

2   Screw the shade onto the threads on the fixture arm. Do not over-tigthen.
